

SPS.30

GESTURE LIGHTING CONTROL SCENE PLATE

SPS.30 GESTURE LIGHTING CONTROL SCENE PLATE

The SPS.30 revolutionises professional scene plate control

KEY FEATURES

Contactless technology | Up to 7 Gesture Actions | 8 touch actions (4 touch + 4 long touch and repeat) | Control up to 4 groups | 3 operating modes to suit a range of applications | Elegant edge lighting for scene indication | Can be retrofitted to existing buildings | Surface and Recess installation options

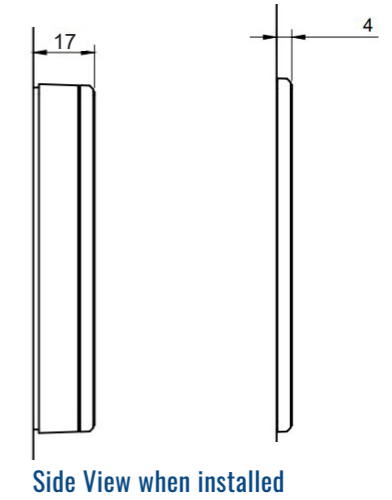

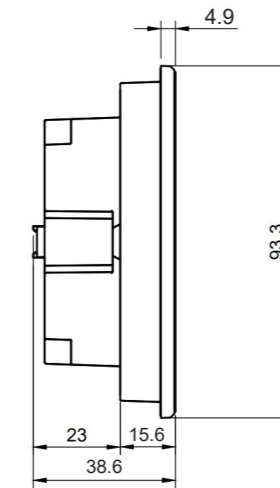

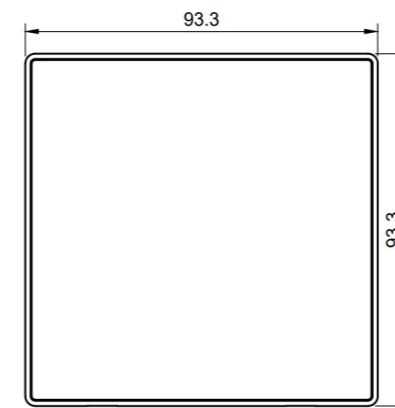

TECHNICAL SPECIFICATION

SUPPLY | Specs 2-Wire E-Bus, combined power and data
Tamb | 0-30°C, 90% Relative Humidity Max (non-condensing)
IP Rating | Combined power and data

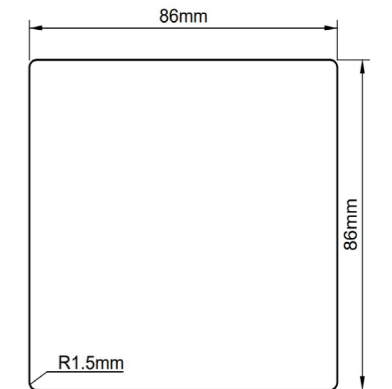

Overview

The SPS.30 revolutionises professional scene plate control. By utilising contactless technology for the most common lighting functions, it is possible to reduce the spread of surface transmittable viruses and bacteria without the need for constant cleaning. Virus Pandemics highlight the importance of clean and hygienic workplaces. While it may not be possible, reasonable, or even desirable to eliminate touch of communal surfaces from our daily lives, activating the most used functions with simple hand gestures while having a touch option for additional actions brings a balance of ease of use and hygiene.
